Re: 2012-51 Application in Rural Residential – Historic Design Control District

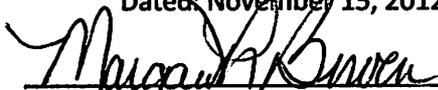

Dear Mr. and Mrs. Olmsted:

Your application was filed on September 24, 2012 with the Town of Calais Zoning Administrator. The proposed project was adding two double hung windows to the south side of your house under the porch. As the applicants you filed a copy of the proposed project with the Design Advisory Board (DAB) as required under Section 5.5 Design Review regulations of the Calais Zoning Regulations.

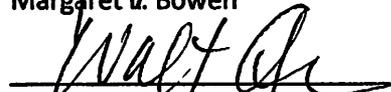

On October 18, 2012 a hearing was duly warned and held by the Development Review Board and a letter of approval was submitted for our consideration by the Design Advisory Board that the proposed project met the guidelines of Section 5.5 Design Review Regulations.

Therefore the Development Review Board closed and reviewed the evidence submitted on the application, and **"APPROVED"** the proposed project as submitted.

Dated: November 15, 2012
