Re: 2012-26 Application in Rural Residential – Historic Design Control District

Dear Mr. Peter Harvey:

Your application was filed on June 26, 2012 with the Town of Calais Zoning Administrator. The proposed project was to create an exterior alteration to a building located on your property by replacing an overhead garage door with a ten-foot siding garage door, add a new window and remove the existing basketball backboard. As the applicant, you filed a copy of the proposed project with the Design Advisory Board (DAB) as required under Section 5.5 Design Review regulations of the Calais Zoning Regulations.

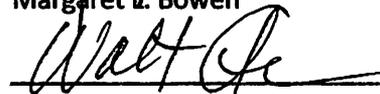

On 8/9/12 a hearing was duly warned and held by the Development Review Board and a letter of approval was submitted for our consideration by the Design Advisory Board, dated July 11, 2012 that the proposed project met the guidelines of Section 5.5 Design Review Regulations.

At said meeting, Mr. Harvey explained that he had in fact completed the project, therefore the Development Review Board closed the evidence, reviewed all documents submitted and "APPROVED" the proposed project. This letter hereby confirms the decision of the DRB on this application.

Dated: November 15, 2012
