Significant Wetland Inventory (green)

Originator: Vermont Department of Environmental Conservation,
Water Quality Division, Wetlands Section

Publication Date: June 8, 2010

Edition: 2010D

This dataset represents wetlands in Calais included in Vermont's Significant Wetlands Inventory (WaterWetlands_VSWI).

This data layer is intended for planning and informational use, to alert the public to the presence of regulated wetlands. This data layer is not designed to be used as sole criteria in any decision making process. Questions about wetland location and use should be referred to the ANR DEC Wetlands section, (802) 244-6951.
